A NEW ERA OF BRASS AND WOODWIND INSTRUMENTS

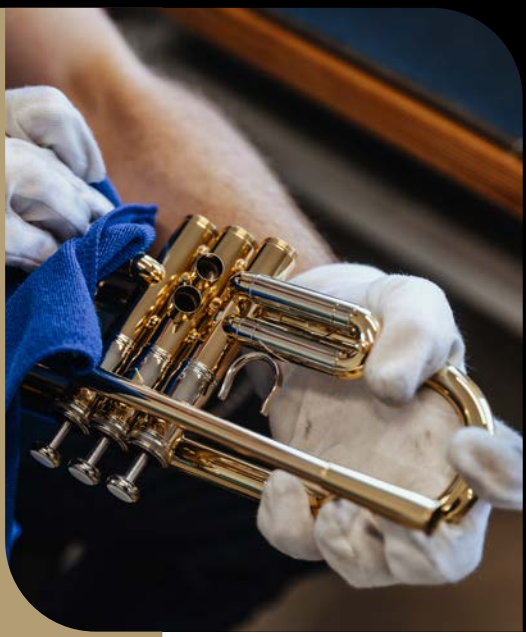

GEWA
GERMANY

With GEWA GERMANY, we introduce a new brand of wind instruments that combines musical passion, technical precision, and decades of experience.

The instruments are designed for ambitious beginners as well as professional musicians who demand the highest standards in tone, response, and craftsmanship – while offering outstanding value for money.

Developed to the highest quality standards and with meticulous attention to detail, the instruments combine traditional craftsmanship with modern manufacturing technology. A select range of the brass instruments is produced at the new GEWA wind instrument workshop in Adorf, Vogtland – the historic center of European wind instrument making. After 18 months of intensive construction and setup, serial production has been successfully launched, marking a significant milestone in the continued development of the brand.

A particular highlight is the newly-built finishing facility at the Adorf site. It operates at the highest technical level and is equipped with state-of-the-art technology. Precisely controlled processes, advanced surface technologies, and the highest environmental and quality standards enable premium finishes – uniform, durable, and acoustically neutral. It is undoubtedly one of the most advanced finishing facilities worldwide.

As a finisher, it's a great pleasure for me to work in such a modern facility. The technical capabilities and precise processes give me the confidence to refine every instrument with the utmost care and consistent quality.

Robert Sulc, Lacquer

Each instrument stands for precise intonation, balanced response, and a high level of playing comfort.

Whether in the orchestra, in solo performance, or in music education, GEWA GERMANY offers reliable, durable instruments with a distinctive, expressive sound. Developed with musicians, for musicians – driven by conviction and passion.

Ambition

The GEWA Germany Ambition Series is specifically designed for students and beginners seeking high-quality wind instruments with solid craftsmanship and excellent value for money.
The instruments are manufactured in collaboration with a selected partner facility in China, based on German design and under the continuous supervision of GEWA Germany's product managers and instrument makers.

The Ambition Series is part of GEWA's commitment to supporting musicians from the earliest stages of their development. The instruments are easy to play, ergonomically designed, and at the same time deliver the tonal precision and reliability needed to progress musically with confidence and enjoyment.

- Robust construction: durable, long-lasting, and comfortable to handle at the same time
- Beginner-friendly playing characteristics: low blowing resistance and stable intonation
- High-quality materials and manufacturing standards
- Comprehensive accessories: including a sturdy case, mouthpiece, and care accessories

As a music school director, I am very pleased to be able to offer our students a complete range of high-quality wind instruments.

It is great to see the enthusiasm with which the young musicians – especially in the symphonic wind orchestra – respond to the new instruments. The quality, playing feel, and balanced sound are highly motivating and make a noticeable contribution to their musical development.

Thomas Kastner, Music school director

Flute for children FL655 Ambition GWFL655

- Curved headjoint
- Nickel silver headjoint, body and keys silver plated
- Child-friendly shorter design without a separate footjoint
- Lowest note D (tuned to C)
- Simplified mechanism with finger buttons
- No trill keys, no split E
- Includes cleaning rod and cloth
- Lightweight rectangular case with backpack straps

Flute FL650E Ambition GWFL650E

- Nickel silver headjoint, body and keys silver plated
- Split E, offset G key
- Natural cork bumpers
- White felt bumpers
- Modified stop post under D# key
- With cleaning rod and cleaning cloth
- Wooden case with bag

Flute FL650E2 Ambition GWFL650E2

- With straight and curved headjoint
- Nickel silver headjoints, body and keys silver plated
- Split E, offset G key
- Natural cork bumpers
- White felt bumpers
- Modified stop post under D#-key
- With cleaning rod and cleaning cloth
- Wooden case with bag

Flute FL650RI Ambition GWFL650RI

- Nickel silver headjoint, body and keys silver plated
- Open hole keys, inline G
- Natural cork bumpers
- White felt bumpers
- Modified stop post under D#-key
- With cleaning rod and cleaning cloth
- Wooden case with bag

Flute FL650RI2 Ambition GWFL650RI2

- With straight and curved headjoint
- Nickel silver headjoints, body and keys silver plated
- Open hole keys, Inline G
- Natural cork bumpers
- White felt bumpers
- Modified stop post under D#-key
- With cleaning rod and cleaning cloth
- Wooden case with bag

Bb-Clarinet CL655 Ambition GWCL655

- German system
- Hard rubber body
- Barrel: 53mm
- Nickel silver keys, silver plated
- 20 keys, 6 rings
- Supplied with original Ernst Schreiber mouthpiece (ESM)
- With cleaning swab and cork grease
- Light weight case with rucksack assembly

Bb-Clarinet CL650 Ambition GWCL650

- Boehm-System
- ABS body, wood-like finish
- 17 keys, 6 rings
- 2 barrels: 62mm and 64mm
- Undercut tone holes
- Nickel silver keys, silver plated
- Low-E reinforcement bar
- Mouthpiece with ligature and cap
- Light weight case with rucksack assembly

Bb-Clarinet CL651 Ambition GWCL651

- Boehm-System
- ABS body, wood-like finish
- 18 keys, 6 rings, Eb-lever
- 2 barrels: 62mm and 64mm
- Undercut tone holes
- Nickel silver keys, silver plated
- Low-E reinforcement bar
- Mouthpiece with ligature and cap
- Light weight case with rucksack assembly

Bb-Soprano Saxophone SC650 Ambition GWSC650

- Curved model
- Acoustic neck
- Brass body and keys
- Gold lacquered finish
- High F#-key
- H/Bb connected table key
- Lightweight case with backpack straps

Bb-Soprano Saxophone SS650 Ambition GWSS650

- Straight model
- Convertible straight and curved accoustic neck
- Brass body and keys
- Gold lacquered finish
- High F#-key
- H/Bb connected table key
- Lightweight case with backpack straps

Eb-Alto children's saxophone AS655 Ambition GWAS655

- Alto saxophone for children
- Keys adapted for children's hands
- Suitable for children due to adjusted neck shape
- Brass body and keys
- Gold lacquered finish
- H/Bb connected table key
- Adjustable metal thumb hook
- Lightweight case with backpack straps

Eb-Alto Saxophone AS650 Ambition GWAS650

- Brass body and keys
- Gold lacquered finish
- Acoustic neck
- High F# key
- H/Bb connected table key
- Adjustable metal thumb hook
- Lightweight case with backpack straps

Eb-Alto Saxophone AS501 Ambition GWAS501

- Acoustically improved body and tone hole system
- Brass body and keys
- Gold lacquered finish
- Acoustic neck
- Automatic G# opener
- High F# key
- H/Bb connected table key
- Adjustable metal thumb hook
- Lightweight case with backpack straps

Bb-Tenor Saxophone TS650 Ambition GWTS650

- Brass body and keys
- Gold lacquered finish
- Acoustic neck
- High F# key
- H/Bb connected table key
- Adjustable metal thumb hook
- Lightweight case with backpack straps

Eb-Baritone Saxophone BS650 Ambition GWBS650

- Brass body and keys
- Gold lacquered finish
- Acoustic neck
- High F# key
- H/Bb connected table key
- Low A key
- C key with double arms
- Bell and loop screwed together
- Rectangular case with wheels

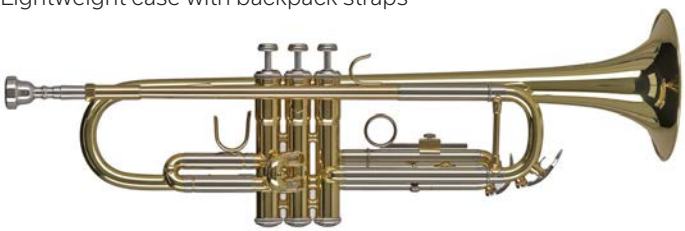

Bb-Pocket Trumpet PT650 Ambition GWPT650

- ML bore .460″ = 11.68mm
- Wide trumpet bell Ø 4 7/8″ = 124mm
- Gold brass leadpipe
- Nickel silver outer slides
- Stainless steel pistons
- Thumb ring on 3rd valve slide
- 2 water keys
- Finish: clear lacquer
- GEWA mouthpiece 7C
- Lightweight case with backpack straps

Bb-Trumpet TR655 Ambition GWTR655

- M bore .453′ = 11.51mm
- Yellow brass bell Ø 4 7/8″ = 124mm
- Gold brass leadpipe
- Nickel silver outer slides
- Stainless steel pistons
- Thumb hook on 1st valve slide
- Adjustable finger ring on 3rd valve slide
- 2 water keys
- GEWA mouthpiece 7C
- Finish: clear lacquer
- Lightweight case with backpack straps

Bb-Trumpet TR650 Ambition GWTR650

- ML bore .459' = 11.66mm
- Yellow brass bell Ø 4 3/4'' = 119mm
- Gold brass leadpipe
- Nickel silver outer slides
- Stainless steel pistons
- Thumb hook on 1st valve slide
- Adjustable finger ring on 3rd valve slide
- 2 water keys
- GEWA mouthpiece 7C
- Lightweight case with backpack straps
- Clear lacquer finish

- Silver plated GWTR650S

Bb-Trumpet TR501 Ambition GWTR501

- ML bore .460″ = 11.68mm
- Yellow brass bell Ø 4 3/4″ = 119mm
- Bell rim with wire
- Gold brass leadpipe
- Thumb hook on 1st valve slide
- Finger ring on 3rd valve slide
- Stainless steel pistons
- 2 water keys
- GEWA mouthpiece 7C
- Lightweight case with backpack straps
- Clear lacquer finish

- Silver plated GWTR501S

Bb-Cornet CR651 Ambition GWCR651

- Short model
- Bore .450' = 11.55mm
- Yellow brass bell Ø 4 3/4'' = 119mm
- Gold brass leadpipe
- Nickel silver outer slides
- Stainless steel pistons
- Trigger on 1st and 3rd valve slide
- 2 water keys
- GEWA mouthpiece 7C
- Lightweight case with backpack straps
- Clear lacquer finish

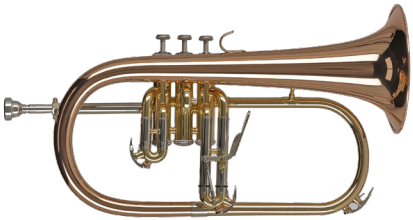

- Silver plated GWCR651S

Bb-Flugelhorn FH501 Ambition GWFH501

- MS bore .433" = 11.0mm
- Gold brass bell Ø 6'' = 152.40mm
- Bell rim with wire
- Gold brass branch, bell to valve
- Stainless steel pistons
- Trigger on 3rd valve slide
- 3 water keys
- GEWA mouthpiece 7C-FL
- Lightweight case with backpack straps
- Clear lacquer finish

- Silver plated GWFH501S

Eb-Alto Trombone AT501 Ambition GWAT501

- Dual bore .481" / .491" = 12,2mm / 12,4mm
- Yellow brass bell Ø 7,5'' = 190mm
- Chrome plated nickel silver inner slide
- Nickel silver outer slide
- Clear lacquer finish
- GEWA mouthpiece 12C
- Light weight case with rucksack assembly

Bb-Valve Trombone VT501 Ambition GWVT501

- Bore .500" = 12,7mm
- Yellow brass bell Ø 8'' = 203mm
- 3 stainless steel pistons
- Nickel silver main tube and bow
- Clear lacquer finish
- GEWA mouthpiece 12C
- Light weight case with rucksack assembly

Bb/C-Children's Trombone TB650 Ambition GWTB650

- Dual bore .500" / .525" = 12,7mm / 13,34mm
- Yellow brass bell 8" = 203,20mm
- Chrome plated nickel silver inner slide
- Nickel silver outer slide
- Hand rest, individually adjustable
- Clear lacquer finish
- GEWA mouthpiece 12C
- Light weight case with rucksack assembly

Bb-Tenor Trombone TB501 Ambition GWTB501

- Bore .500" = 12,7mm
- Yellow brass bell Ø 8'' = 203mm
- Chrome plated nickel silver inner slide
- Nickel silver outer slide
- Clear lacquer finish
- GEWA mouthpiece 12C
- Light weight case with rucksack assembly

Bb-Tenor Trombone TB502 Ambition GWTB502

- Bore .525" = 13,34mm
- Yellow brass bell Ø 8'' = 203mm
- Chrome plated nickel silver inner slide
- Nickel silver outer slide
- Clear lacquer finish
- GEWA mouthpiece 6 1/2 AL
- Light weight case with rucksack assembly

Bb/F-Tenor Trombone TB502B Ambition GWTB502B

- F-attachment, Open-Wrap
- Bore .525" = 13,34mm
- Yellow brass bell Ø 8'' = 203mm
- Chrome plated nickel silver inner slide
- Nickel silver outer slide
- Clear lacquer finish
- GEWA mouthpiece 6 1/2 AL
- Light weight case with rucksack assembly

Bb/F-Tenor Trombone TB503B Ambition GWTB503B

- F-attachment, Open-Wrap
- Bore .547" = 13,9mm
- Yellow brass bell Ø 8,5'' = 216mm
- Chrome plated nickel silver inner slide
- Nickel silver outer slide
- Clear lacquer finish
- GEWA mouthpiece 6 1/2 AL
- Light weight case with rucksack assembly

Bb/F/Gb/D-Bass Trombone TB504 Ambition GWTB504

- Bore .562" = 14,3mm
- Yellow brass bell Ø 10'' = 254mm
- Chrome plated nickel silver inner slide
- Nickel silver outer slide
- Hand rest, individually adjustable
- Additional Eb/G slide
- Clear lacquer finish
- GEWA mouthpiece 1 1/2G
- Light weight case with rucksack assembly

Bb Children's French Horn HR650B Ambition GWHR650B

- Brass bell 11″ = 280mm
- Bore: .465″ = 11.8mm
- Gold brass leadpipe
- Nickel silver outer slides
- Mechanical linkage with metal ball joints
- Adjustable finger hook
- Adjustable hand rest (flipper)
- Finish: lacquered
- GEWA mouthpiece 11
- Lightweight shaped case with backpack straps

F-Children French Horn HR650F Ambition GWHR650F

- Yellow brass bell 11″ = 280mm
- Bohre: .465″ = 11,8mm
- Goldbrass mouthpipe
- Nickel silver outer slide tubes
- Mechanical linkage with metal ball joints
- Adjustable finger hook
- Adjustable hand rest (Flipper)
- Finish: lacquered
- GEWA mouthpiece 11
- Light weight form-shaped case with rucksack assembly

Double French Horn HR501 Ambition GWHR501

- Tuning F/Bb-Bb/F, reversible
- Brass bell 12″ = 305mm
- Bore: .468″ = 11.89mm
- Gold brass leadpipe
- Nickel silver outer slides
- Mechanical linkage with metal ball joints
- Adjustable push rod with left/right thread on switch valve
- Adjustable finger hook
- Adjustable hand rest (flipper)
- Finish: lacquered
- GEWA mouthpiece 11
- Lightweight shaped case with backpack straps

Eb-Alto Horn AH650 Ambition GWAH650

- .462″ bore = 11,73 mm
- Bell Ø 8″ = 203 mm
- Yellow brass body
- Gold brass leadpipe
- Nickel silver outer slides
- 3 top action valves
- Stainless steel pistons
- GEWA mouthpiece 6
- Light weight case with rucksack assembly
- Clear lacquer finish

- Silver plated GWAH650S

Bb-Baritone Horn BH650 Ambition GWBH650

- Bore .504″ - .531″ = 12,8mm - 13,5mm
- Yellow brass bell: Ø 8 3/8″ = 211mm
- Gold brass leadpipe
- Nickel silver outer slides
- 3 top-action valves
- Stainless steel pistons
- GEWA mouthpiece 12C
- Light weight case with rucksack assembly
- Clear lacquer finish

- Silver plated GWBH650S

Bb-Baritone Horn BH651 Ambition GWBH651

- Bore .504" - .531" = 12,8mm - 13,5mm
- Yellow brass bell: Ø 8 3/8" = 211mm
- Gold brass leadpipe
- Nickel silver outer slides
- 4 valves (3 top, 1 side action)
- Stainless steel pistons
- GEWA mouthpiece 12C
- Light weight case with rucksack assembly
- Clear lacquer finish

- Silver plated GWBH651S

Bb-Euphonium EP653 Ambition

GWEP653

- Bore .570'' = 14.5mm
- Yellow brass bell Ø 11'' = 280mm
- Gold brass leadpipe
- Nickel silver outer slides
- 3 top-action valves
- Stainless steel pistons
- Clear lacquer finish
- GEWA mouthpiece 6 1/2AL
- Light weight case with rucksack assembly

Bb-Euphonium EP654 Ambition

GWEP654

- Bore .570'' / .610'' = 14.5mm / 15.5mm
- Yellow brass bell Ø 11'' = 280mm
- Gold brass leadpipe
- Nickel silver outer slides
- 4 top-action valves Inline
- Stainless steel pistons
- Clear lacquer finish
- GEWA mouthpiece 6 1/2AL
- Light weight case with rucksack assembly

Bb-Euphonium EP655 Ambition GWEP655

- Bore .570'' / .660'' = 14,5mm / 16,8mm
- Yellow brass bell Ø 11'' = 280mm
- Gold brass leadpipe
- Nickel silver outer slides
- 4 valves (3 top, 1 side action)
- Stainless steel pistons
- GEWA mouthpiece 6 1/2AL
- Light weight case with rucksack assembly
- Clear lacquer finish

- Silver plated GWEP655S

Bb-Euphonium EP501 Ambition GWEP501

- Compensated model
- Bore .591" / .661" = 15.0mm / 16.8mm
- Yellow brass bell Ø 11.8'' = 300mm
- Gold brass leadpipe
- Nickel silver outer slides
- 4 valves (3 top, 1 side action)
- Stainless steel pistons
- Clear lacquer finish
- GEWA mouthpiece 6 1/2AL
- Light weight case with rucksack assembly

BBb Tuba BB650 Ambition GWBB650

- Bore: .661" bore = 16,8mm
- Bell: Ø 14 3/8" = 366mm
- Yellow brass body
- Gold brass leadpipe
- Nickel silver outer slides
- 3 valves, Top Action
- Stainless steel pistons
- GEWA mouthpiece 24AW
- Light weight form shaped case with wheels
- Weight approx. 5,8 kg
- Clear lacquer finish

- Silver plated GWBB650S

BBb Tuba BB501B Ambition GWBB501B

- Bore: .689" / .728" = 17,5mm / 18,5mm
- Bell: Ø 14 3/8" = 366mm
- Yellow brass body
- Gold brass leadpipe
- Nickel silver outer slides
- 4-valves, Front Action
- Stainless steel pistons
- Removable valve section
- Adjustable thumb rest
- Clear lacquer finish
- GEWA mouthpiece 24AW
- Light weight form shaped case with wheels
- Weight approx. 7.0 kg

Precision and sound
in perfect harmony

K. Sandner

As a trained woodwind instrument maker and clarinetist, one thing matters most to me: uncompromising quality and sound. A perfectly adjusted key mechanism, true intonation, and an exceptionally easy response are a matter of course for me – because only then does an instrument become a true musical experience.

Karel Sandner, Developer / Clarinetist

The GEWA Germany K. Sandner clarinets stand for the highest quality and outstanding craftsmanship. With excellent build quality and a precise key mechanism, they offer exceptional playability and reliability. Their well-balanced intonation and easy response make these clarinets suitable for both beginners and advanced musicians. The precisely engineered mechanism ensures a comfortable playing experience and maximum control over the sound. Whether in lessons, orchestra, or on stage – the GEWA Germany K. Sandner clarinets impress with their warm, expressive tone and premium construction. An instrument that meets the highest musical demands.

Bb-Clarinet KS10 K. Sandner GWVKS10

- Boehm system
- Body: ABS
- 17 keys, 6 rings
- 2 barrels: 63mm and 65mm
- Keys: Nickel silver, silver plated
- Pisoni leather pads
- Adjustable thumb rest with ring for carrying strap
- Mouthpiece with ligature and cap
- Lightweight case with backpack straps

Bb-Clarinet KS10E K. Sandner GWVKS10E

- 18 keys, 6 rings, Eb lever

Bb-Clarinet KS20 K. Sandner GWVKS20

- Boehm system
- Body: grenadilla
- 17 keys, 6 rings
- 2 barrels: 63mm and 65mm
- Keys: Nickel silver, silver plated
- Pisoni leather pads
- Adjustable thumb rest with ring for carrying strap
- Mouthpiece with ligature and cap
- Lightweight case with backpack straps

Bb-Clarinet KS20E K. Sandner GWVKS20E

- 18 keys, 6 rings, Eb lever

Bb-Clarinet KS30 K. Sandner GWVKS30

- Boehm system
- Body: grenadilla
- 17 keys, 6 rings
- 2 barrels: 63mm and 65mm
- Barrels with carbon ring at the top end
- Thick bell design "Fat-Bell"
- Keys: Nickel silver, silver plated
- Pisoni leather pads
- Adjustable thumb rest with ring for carrying strap
- Mouthpiece with ligature and cap
- Lightweight case with backpack straps

Bb-Clarinet KS30E K. Sandner GWVKS30E

- 18 keys, 6 rings, Eb lever

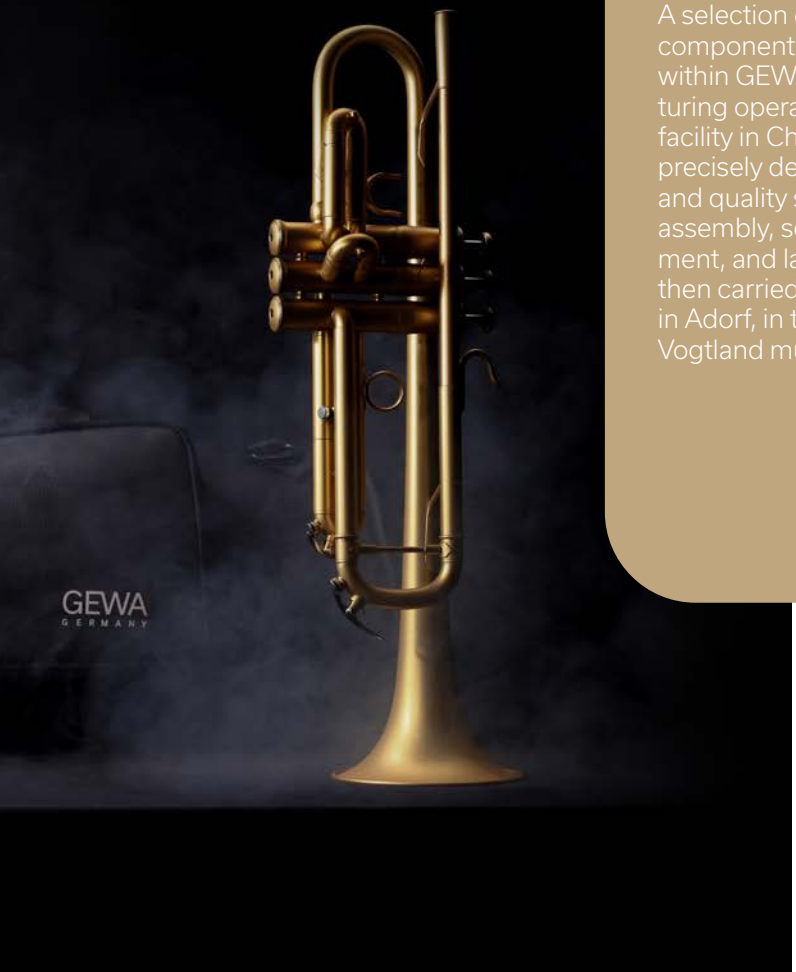

Bb-Clarinet KS30PE K. Sandner GWVKS30PE

- Boehm system
- Body: rosewood
- 18 keys, 6 rings, Eb lever
- 2 barrels: 63mm and 65mm
- Barrels with carbon ring at the top end
- Thick bell design "Fat-Bell"
- Keys: Nickel silver, silver plated
- Pisoni leather pads
- Adjustable thumb rest with ring for carrying strap
- Mouthpiece with ligature and cap
- Lightweight case with backpack straps

Vision

Innovation meets
German craftsmanship

The Vision Series by GEWA Germany stands for the highest quality, technical precision, and musical expressiveness. It is designed for advanced musicians who expect exceptional sound, perfect craftsmanship, and uncompromising reliability. The instruments combine modern manufacturing technology with traditional craftsmanship, and are impressive with their excellent response, balanced intonation, and outstanding sound projection.
A selection of materials and components is produced within GEWA's own manufacturing operations at our partner facility in China, following precisely defined specifications and quality standards. Final assembly, setup, fine adjustment, and lacquering are then carried out in Germany, in Adorf, in the heart of the Vogtland music region.

Designing high-quality instruments and manufacturing them in series at a consistently high standard is a true challenge.

We listen closely to musicians, teachers, and professors at music academies.

It is therefore no surprise that experienced musicians and renowned instrument makers are closely involved throughout our production process.

Bernd Limberg, Developer / Trombonist

Deeply rooted in the centuries-old tradition of instrument making in this region, which has been a world-renowned center of craftsmanship since the 17th century, GEWA Germany consciously builds on this heritage. In the new, state-of-the-art finishing facility in Adorf, the Vision Series instruments are refined using cutting-edge equipment. Precisely controlled processes ensure outstanding surface quality, durability, and an acoustically optimized finish. With the Vision Series, GEWA Germany emphasizes its philosophy of combining tradition and progress to create instruments that inspire musicians and support them at the highest level.

Bb-Trumpet TR172 Vision GWVTR172

- ML bore .460" = 11,68mm

Artist

When craftsmanship becomes art

With the new Artist line, we set out to build trumpets that connect with you from the very first note. Our top priority was a highly direct response and a playing feel that simply feels right in all registers – whether warm and velvety in the low range or bright and brilliant in the high range. The instruments respond with outstanding precision, while still giving you exactly the freedom you need as a musician.

Jan Linda, Developer / Trumpeter

The GEWA Artist line embodies the ultimate in tonal excellence, craftsmanship, and aesthetic refinement. Each instrument is created with the goal of providing professional musicians with a tool that enables artistic expression without compromise.

In our newly built master workshop for brass instruments in Adorf, Germany, these instruments are crafted with the utmost care. Experienced instrument makers combine traditional craftsmanship with state-of-the-art technology. Only carefully selected, premium-quality materials – entirely sourced from Germany – are used. Whether in a large symphony orchestra, demanding studio work, or on international stages: GEWA Artist instruments impress with exceptional tonal depth, clear projection, and effortless presence.

They know no stylistic boundaries – from classical music to jazz, as well as modern and traditional genres. The sound of a GEWA Artist instrument is more than just audible: it inspires the musician, moves the audience, and makes musical excellence tangible.

Bb-Trumpet Artist I GWATR1

- Bell flare D (direct projection)
- Handmade one-piece yellow brass bell Ø 122mm
- Bore 11,7mm
- Yellow brass leadpipe
- Yellow brass valve casing with stainless steel pistons
- Nickel silver outer slides
- Thumb saddle on 1st valve slide
- Finger ring on 3rd valve slide
- 2 waterkeys
- GEWA mouthpiece 1 1/2 C
- All parts made in Germany
- High-quality GEWA Germany double gig bag
- High-quality GEWA finish / clear lacquer

- High-quality GEWA finish / clear lacquer

Gig Bags

Protection. Style.
Performance.

GEWA Germany gig bags represent uncompromising quality and modern protection for your instrument. Made from high-quality, water-repellent Cordura and innovative high-tech materials, they provide maximum safety with minimal weight. The impact-absorbing high-density foam ensures optimal protection – even under intensive use while traveling or in daily practice. The compact design offers maximum carrying comfort combined with a sleek, modern appearance.
Practical exterior pockets provide ample space for accessories, sheet music, or a tablet, while adjustable, removable shoulder straps and backpack straps ensure a comfortable carrying experience.
Refined details such as high-quality black metal components and the luminescent GEWA logo underline the professional character of this series – a clear statement of quality made by GEWA Germany.
